Abstract

Every child in the classroom may not perform equally as there are individual differences among every child. There may be identified a list of issues among different children. With these issues both child as well as the parents are suffering a lot and many a time they express their inability to overcome these problems. But the same children may be excelling in other co-curricular activities. We also know that all the children are not happy at learning due to different reasons. Those reasons may be influenced by various factors such as home environment, peer group and school environment. With an inspiring quotation from Stephen Hawking, "Intelligence is the ability to adapt to change and "However difficult life may seem, there is always something we can do and succeed at". The present article is inspired by the success story of Stephen Hawking and attempted to utilize this intervention to build the confidence level among the children who become successful learners through counseling. Case study method was adopted in this study. By knowing their strengths and potentials, counseling will help to bring the change in their knowledge more over it becomes a great contribution in nation building by providing the genius personalities.

Key words: suffering, excelling, peer group, intervention, potentials
