

## A Few Question About Special Educational Needs in The Context of Conduct And/ Or Behavioral Disorder

**Prof. Martin Kaleja, Jarmila Žolnová**

University of Prešov, Slovakia

### **Abstract**

In institutional school education, not only the pedagogical public is faced with certain peculiarities in the conditions of children's and pupils' behavior. These are often categorized as manifestations of so called problematic behavior, behavioral disorders or as manifestations of some other risk behavior. The aim of the contribution is to define these basic categories, the basic attributes of etiology and causality, as well as to describe their basic symptoms, including recommended preventive and interventional special educational procedures.

**Keywords:** Special educational needs, pupils, behavior disorder, recommendation
