## **Abstract**

Education is the act of learning things around us. It helps us to make our lives better and makes balance throughout the whole life in every aspect. Education is the first and foremost right of every human being. Without education, we are incomplete. However, in modern era it changes a lot of and also effect economical issues. But it's the only way to develop a nation, improve our life style and change society's early blind faith.

**Keyword:** changes, develop, important of education, difference between traditional education and modern education
