ABSTRACT

This topic focuses on examining the social and economic impact of women's entrepreneurship in Ghana and its role in empowering women and transforming communities. The research will explore the contributions of women entrepreneurs to job creation, poverty alleviation, gender equality, and community development. It will also examine the challenges faced by women entrepreneurs in achieving sustainable impact. The objectives of this study are to assess the social and economic impact of women's entrepreneurship, identify best practices and success stories, and provide recommendations for fostering an inclusive and supportive ecosystem for women entrepreneurs in Ghana.
